

**SUPER BAR-LOK® CABLE TIES** are superior to conventional cable ties.

**HIGHER TENSILE STRENGTH**  
Exceeds military specification tensile strength test of 50 lbs. Perfect for any application requiring an extra strong tie with a minimum cross section.

**WEIGHS LESS**  
A natural fit for applications where weight is important (ie. aerospace, marine, aviation and automotive industries).

**MORE FLEXIBLE** thus, easier to apply.

**VIRTUALLY NO CREEP**  
Super Bar-Lok® will not loosen or relax even under conditions of high heat, humidity, or vibration.

**MORE RESISTANT** to environmental extremes, extreme temperatures, ultraviolet light, and salt water spray.

**SURVIVES CYCLIC SHOCK FATIGUE** up to 70% longer than competitive ties under severe shock and vibration conditions.

**PETROCHEMICAL RESISTANCE**  
Perfect in applications where grease, oil and fuels are present.

**Fastening wire harnesses is a typical application** where Avery Dennison provides superior strength and performance.

A large capital equipment manufacturer uses them to hold hoses in the engine area. They chose Super Bar-Lok® because this product resists petro-chemicals better than traditional cable ties and holds up better in high vibration environments.
